SOFTWARE DEVELOPMENT & OPERATIONS PROFESSIONAL | ADVANCING USER-FOCUSED WEB SOLUTIONS

Career-transitioning software development professional with hands-on training in JavaScript, React, TypeScript, HTML, CSS, Node.js, Python, SQL, REST APIs, GraphQL, responsive web design, Git, Agile, Cypress, and Insomnia. Offers 16 years of operations leadership experience across high-volume restaurant environments, with proven strengths in systems management, process improvement, team development, customer experience, troubleshooting, and performance optimization. Recognized for improving underperforming locations, strengthening employee retention, developing future leaders, supporting sales growth, and applying structured problem-solving to build efficient, user-focused digital solutions.

SOFTWARE DEVELOPMENT PROJECTS

Flavor Pidginhole

Full-Stack Recipe Sharing Application | React, TypeScript, GraphQL, MongoDB, JWT Authentication

GitHub: github.com/bungin/Flavor-Pidginhole

Live Site: flavor-pidginhole.onrender.com

- **Full-Stack Application Development:** Built a recipe-sharing platform that allowed users to share, save, and interact with recipe content through a structured web application.
- **Front-End User Experience:** Applied React and TypeScript to support responsive interface functionality, reusable components, and organized user-facing features.
- **Feature-Oriented Application Delivery:** Supported end-to-end feature development by connecting user interface functionality, data flow, authentication, and content interaction within a full-stack web application.
- **API and Database Integration:** Used GraphQL and MongoDB to connect front-end features with back-end data handling and application logic.
- **Secure User Access:** Implemented JWT authentication to support protected user functionality and account-based application access.

Social Network API

Backend Application Development | Node.js, Express, TypeScript, RESTful APIs, MongoDB

GitHub: github.com/kvothe1387/Social_Network_API

- **RESTful API Development:** Developed a back-end social networking API to support users, friend connections, thoughts, and reactions.
- **Server-Side Application Structure:** Built routes, controllers, and database models to organize application logic and support maintainable back-end functionality.
- **Structured Endpoint Functionality:** Organized API endpoints to support clear request handling, consistent application behavior, and maintainable back-end development.
- **Database Management:** Used MongoDB to structure and manage application data for user activity and social interaction features.
- **API Testing and Validation:** Tested API functionality through Insomnia to confirm request handling, endpoint behavior, and back-end response accuracy.

Travel Journal

Responsive Front-End Web Application | JavaScript, HTML, CSS, Responsive Design

GitHub: github.com/kvothe1387/Travel-Journal

Live Site: kvothe1387.github.io/Travel-Journal

- **Responsive Web Development:** Created a travel journal application designed to support clean user interaction across desktop and mobile screen sizes.
- **Interactive Front-End Functionality:** Built location-based content features with interactive maps and dynamic page behavior.
- **User-Focused Interface Design:** Applied JavaScript, HTML, and CSS to create an accessible, organized, and visually clear front-end experience.
- **Dynamic Content Rendering:** Supported filtering and content display functionality to improve navigation and usability within the application.

EDUCATION, CERTIFICATIONS & TECHNICAL TRAINING

Certificate, Full Stack Web Development

The University of Kansas | Jun 2024 - Dec 2024

- Completed 240 contact hours of software development training with coursework in JavaScript, React, Node.js, TypeScript, Python, SQL, PERN and MERN stack development, REST APIs, GraphQL, MVC architecture, responsive design, Git, Agile, Cypress, and Insomnia.
- Built hands-on experience developing full-stack applications while strengthening problem-solving, debugging, application structure, database integration, and user-focused development skills.
- Completed program with a 90 grade and earned 24.00 CEU.

Additional Web Development Training

Scrimba | 2025 - 2026

- Completed Learn JavaScript, Advanced JavaScript, Learn React, and Advanced React coursework covering front-end development, JavaScript fundamentals, advanced programming concepts, and modern React practices.
- Strengthened practical front-end development skills through structured lessons focused on interactive web applications, responsive user interfaces, reusable components, and application functionality.

TECHNICAL SKILLS, TOOLS & TECHNOLOGIES

- **Frontend:** React, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Responsive Web Design
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, MVC Architecture, JWT Authentication
- **Databases:** SQL, PostgreSQL, MongoDB, Sequelize ORM, Mongoose
- **Testing and Development Tools:** Cypress, Git, GitHub, Insomnia, Agile Development Practices
- **Deployment and Hosting:** Render, Netlify, GitHub Pages
- **Operational and Transferable Skills:** Systems Management, Operational Efficiency, Troubleshooting, Process Improvement, Team Leadership, Customer Experience, Performance Optimization

PROFESSIONAL EXPERIENCE

Catering Hot Prep Cook

Jack Stack Barbecue - Overland Park, KS | Jul 2021 - May 2026

- **Large-Scale Catering Execution:** Coordinated preparation support for high-volume catering orders while maintaining company recipe standards, quality expectations, and event timelines.
- **Order Accuracy and Process Control:** Reviewed Banquet Event Orders and delivery sheets to identify missing details before fulfillment and reduce preventable service issues.

Regional Training Manager

Smashburger - Manhattan, Overland Park, Olathe, KS | Oct 2013 - Oct 2020

- **3rd Lowest Employee Turnover Among 150 East Division Locations:** Improved retention outcomes through structured coaching, team accountability, leadership development, and consistent performance expectations.
- **Top 10 Sales Growth and Customer Satisfaction at Multiple Locations:** Strengthened store performance by improving service consistency, operational discipline, issue resolution, and front-line team execution.
- **3 Assistant Manager Promotions:** Developed emerging leaders into successful General Manager roles while supporting training programs, new restaurant openings, and underperforming location improvement.

Assistant Store Manager

Taco Bell - Overland Park, KS | Oct 2010 - Aug 2013

- **Operational Continuity:** Oversaw digital inventory systems and reporting tools while troubleshooting issues that affected store execution and workflow consistency.
- **Team Leadership Support:** Supported shift operations through staff coordination, customer service oversight, performance expectations, and front-line problem-solving.

Assistant Store Manager

McDonald's Corporation - Overland Park, KS | May 2001 - Sep 2010

- **Early Leadership Promotion:** Earned promotion to Shift Leader at age 18, reflecting reliability, leadership capability, and consistent operational performance.
